

WHIDBEY ISLAND HORSE COUNCIL
MEETING MINUTES
4/1/2026

The meeting was called to order at 6:30pm and was conducted in person and on zoom: 12 people were in attendance (5 on zoom). The minutes from the last meeting were reviewed and approved as presented.

The County Comp Plan was discussed by Paula who submitted comments to the County on behalf of the Horse Council. She requested that County funds be allocated for phase 2 of the Putney Woods trail reroute and for a new multi-use path to be constructed along side (but not directly on) the new Oaks Road in Central Whidbey.

The Economic Impact Survey communications plan was discussed by Betsy who had sent an outline of the proposed plan to Leslie. We decided to focus on social media for communications, both Facebook and a webpage. Karena has been working on the FB page and Sally will send out an email to the Equine Directory to join the HC FB page when it is ready. Sally will contact Vickie Moser to see if she will help with the webpage development.

Peggy discussed the equine disaster plan. She is following the planning for Island humans and will draft an outline for us to consider for equines. Peggy will call NAS and inquire about the Navy's disaster planning.

No news on the Whidbey Equine Directory of resources.

Barb reported that the large animal rescue planning is still not organized. The equipment is at Jerry Lloyd's house and needs to find a home...hopefully at a Fire Station where it can be accessed in case of an emergency call involving large animals.

In other business, Karena advised that there is a notice of land use development at the corner of Arnold and SR 20 for the development of 45 new houses within Ebey's Landing Historical Reserve. She has commented (objected) to the County and others have/will do so too. Sally will contact the Reserve Manager to see if the Reserve has commented on the proposal.

The meeting was adjourned at 7:45pm. The next meeting will be held on May 6, 2026 at the Race Road Fire Station at 6:30pm.
